Dr. Henry Glick, Chairman
Professor, Political Sciences
BEL 571
CAMPUS MAIL

Dear Dr. Glick:

I am writing to you as a formal complaint against Political Science adjunct Professor Barry Edwards. As you are perhaps aware, Mr. Edwards is a suspect in a grand theft case regarding stolen Student Government property. There was a witness who saw him and a student carrying out several boxes of the reports of the Office of Legislative Affairs from SGA offices.

Mr. Edwards has had questionable dealings with Student Government officials. He has constantly interfered "behind the scenes" in SGA internal workings. For example, he has passed on his students to Student Body President Nick Iarossi for SGA positions. They tend to have loyalty to Mr. Edwards and work sometimes at his bidding and not for the benefit the student body. Mr. Edwards has much authority as a professor here at FSU, and I feel this is a questionable use of his authority. In addition, there are rumors that because Mr. Edwards is an honorary member of the Alpha Tau Omega Fraternity, he has misused his position for the benefit of his "fraternity brothers" by giving A's to them in class and ensuring internship positions for them at the Capitol. I ask you to investigate this rumor further.

Regarding Mr. Edwards affiliation with ATO, I have verified that he was involved with the "Excaliber" social at the ATO House in March. This is the same dubious social in which chickens were allegedly slaughtered. There are photos with him there. I also understand that underage drinking was involved at this social. If he was there, is he not responsible to intervene? Furthermore, is his attendance at this party questionable fraternization? Yet, not only was Mr. Edwards involved at the ATO party, but he has decide to interfere in student politics by helping the Impact Party. He had previously aided the ONLY Party and helped them break several Student Government Constitution and Statutes. This again shows him interfering in student concerns. The only faculty/ administration who should have any influence in SGA is Vice President Dalton.

I would greatly appreciate it if you could address these concerns.

Sincerely,

Edward Dandrow
Student Senate President
