Subject: Government Shutdown

To: xxxxxxxxxxxx

As you are aware, we are in the midst of a partial government shut-down. The Department of Housing and Urban Development (HUD) has enough money to ensure February payments (Housing Assistance Payment and Utility Allowance Payment) will be available for payment. However, HUD does not currently have enough money to make the Housing Assistance and Utility Allowance Payments for March in the event the government shut down continues.

The St. Petersburg Housing Authority urges everyone to make their voices heard to Congress. Congress must agree to a funding bill. Now is the time to reach out to your Congressional Representatives and demand that a fiscal year 2019 appropriations bill for HUD be passed.
